1. Background

Southwestern Electric Power Company (“SWEPCO” or the “Company”) is pursuing additional generation resources via three Request for Proposals (“RFPs”) to satisfy the need for additional generation resources as a result of recent announcement of upcoming retirements of owned generating capacity by the Company. This need will be reflected in the Company’s draft Integrated Resource Plan (“IRP”) to be shared with stakeholders in upcoming IRP stakeholder processes.

This **SPP Capacity RFP** seeks up to 200 MW of SPP Accredited Deliverable Capacity for planning years 2023 and 2024 and seeks up to 250 MW of SPP Accredited Deliverable Capacity for planning years 2025, 2026 and 2027.

The Wind and Solar PSA RFPs and may be found at www.swepco.com/rfp.

The Company will evaluate each of the RFPs, individually and collectively, to determine the portfolio of projects that it elects to move forward with.

2. Introduction

American Electric Power Service Corporation (“AEPSC”) and SWEPCO are subsidiaries of American Electric Power Company, Inc. (“AEP”).

AEP is one of the largest electric utilities in the United States, delivering electricity and custom energy solutions to nearly 5.4 million regulated retail customers in 11 states. AEP owns the nation's largest electricity transmission system, a more than 40,000-mile network that includes more 765kV extra-high voltage transmission lines than all other U.S. transmission systems combined. AEP also operates approximately 220,000 miles of distribution lines. AEP ranks among the nation's largest generators of electricity, owning approximately 26,000 megawatts of generating capacity in the U.S. AEP also supplies approximately 4,300 megawatts of renewable energy to customers. AEP's utility units operate as AEP Ohio, AEP Texas, Appalachian Power (in Virginia and West Virginia), AEP Appalachian Power (in Tennessee), Indiana Michigan Power, Kentucky Power, SWEPCO and SWEPCO (in Arkansas, Louisiana and east Texas). AEP's headquarters is in Columbus, Ohio. More information about AEP can be accessed by visiting www.aep.com.

SWEPCO serves 543,000 customers in northwestern and central Louisiana, western Arkansas, East Texas and the panhandle of North Texas. SWEPCO's headquarters are in Shreveport, Louisiana.

SWEPCO has 5,349 MW of generating capacity, including the Sundance Wind Facility, and has executed long-term renewable energy purchase agreements ("REPA") with wind generation resources totaling 469 MW. In addition, SWEPCO has over 4,000 miles of transmission and 25,000 miles of distribution lines. Additional information regarding SWEPCo can be accessed by visiting www.SWEPCO.com.

3. RFP Overview

- 3.1. **Background:** AEPSC is issuing this RFP requesting proposals for electric generating capacity to supply the needs of SWEPCO's customers. Due to recent announcement of upcoming retirements of owned generating capacity, SWEPCO is forecasting a need for additional capacity beginning in 2023 and 2024 of up to 200 MW of SPP Accredited Deliverable Capacity and up to 250 MW of SPP Accredited Deliverable Capacity in 2025, 2026 and 2027.
- 3.2. **Additional Resources:** AEPSC seeks to satisfy SWEPCO's capacity needs from one or more resources in amounts of up to 200 MW in planning years 2023/2024; and up to 250 MW in planning years 2025, 2026 and 2027. Proposals that provide the ability to align with the increasing need over the timeframe above could be advantageous.
- 3.3. **Product:** SWEPCO is seeking purchases of electric capacity from generating resources within the Southwest Power Pool ("SPP") that will allow SWEPCO to satisfy its load and planning reserve obligations. The generating resource must have accredited capacity that satisfies the qualifications for Deliverable Capacity in Attachment AA of the SPP Open Access Transmission Tariff.

- 3.4. Proposal: Bidders must submit at least one proposal for a minimum quantity of 50 MW. The Proposal should be in the form of agreement shown in Appendix D and Bidder must clearly identify any exceptions to the form of agreement in Appendix D.
- 3.5. Resource Location: AEPSC will consider capacity from resources connected to the SPP transmission system and prefers assets in the Arkansas, Louisiana, or Texas portions of SPP.
- 3.6. Timing: The time period between the receipt of Proposals and the time required for the Company's evaluation, due diligence, negotiation and the execution of definitive agreements is anticipated to be less than seven months (see Section 6.1). The Company anticipates filing for regulatory approval in each of its operating jurisdictions (Arkansas, Louisiana, and Texas) in Q1-2022 and receiving regulatory approvals by the end of Q1-2023.
- 3.7. Regulatory Approvals: The Company's decisions regarding the results of this RFP will be subject to its receipt of regulatory approvals from the Arkansas Public Service Commission, the Louisiana Public Service Commission, the Public Utility Commission of Texas. Definitive agreements between the Company and Bidders for selected Projects will be conditioned upon (a) the Company receiving the regulatory approvals described in the preceding sentence that are in form and substance satisfactory to the Company in its sole discretion. The Company plans to submit a portfolio of Projects to the regulatory commissions described above for approval. In the event the entire portfolio is not approved, the Company may reduce the size of the portfolio accordingly by eliminating Project(s) from the portfolio.
- 3.8. Non-Binding. This RFP is not a commitment by the Company to acquire any capacity and it does not bind the Company or its affiliates in any manner. The Company, in its sole discretion, will determine which Bidders, if any, it wishes to engage in negotiations with that may lead to definitive agreements for the purchase of capacity from the selected Proposals.
- 3.9. RFP Questions. All questions regarding this RFP should be submitted by email. Questions and answers that are determined to be pertinent to Bidders will be posted to the RFP webpage. Questions should be submitted to:

SWEPCO2021RFP@aep.com

Bidder's Credit and Collateral Requirements

The RFP selected resource has the potential to expose SWEPCO and its ratepayers to credit risk in the event a selected Bidder is unable to fulfill its obligations pursuant to the terms of an executed definitive agreement. SWEPCO views its potential credit risk as the cost it would incur in the event that the Bidder defaulted at any time during the life of the contract. However, for purposes of determining a collateral requirement, SWEPCO believes that in an event of default under this type of contract, it could take up to 12 months to replace the contract with a comparable asset backed contract. In the meantime, SWEPCO would have to procure capacity in the open market at then-prevailing market prices. This exposure can be viewed as a fixed collateral requirement multiplied by the megawatts (MW) of the bid.

If there is another bid type other than capacity only, the collateral requirement would need to be negotiated.

Exposure Calculation / Collateral Requirement

Under this scenario, the cost of procuring 12 months of capacity is calculated as:

$$\text{MWs} \times 1,000 \text{ KW/1 MW} \times \$36/\text{KW}$$

Credit Rating

If available, the "Credit Rating" for either the Bidder or its Guarantor is defined for purposes of this RFP as the lower of:

1) the most recently published senior, unsecured, unenhanced, long term debt rating (or corporate issuer rating if an unsecured, unenhanced, debt rating is unavailable) from S&P;

or

2) the most recently published senior unsecured, unenhanced, debt rating (or corporate issuer rating if an unsecured, unenhanced, debt rating is unavailable) from Moody's Investor Services.

If a Credit Rating is not available for the Bidder or its Guarantor, the Bidder or its Guarantor will be unrated and must post the maximum amount of collateral required based on the Credit Matrix table below.

Credit Matrix

Based on the Credit Rating of the Bidder or its Guarantor, the value in the Credit Matrix below represents the maximum amount of collateral required by the Bidder and/or its Guarantor. SWEPCO's internal credit risk tolerance specific to this RFP has been applied to the total collateral requirement.

Credit Rating of Bidder's Guarantor S&P/Moody's	Total Requirement
A-/A3 and above	\$0
BBB+/Baa1	Collateral Requirement - \$25,000,000
BBB/Baa2	Collateral Requirement - \$20,000,000
BBB-/Baa3	Collateral Requirement - \$10,000,000
BB+/Ba1 and below	Collateral Requirement

Collateral must be provided by the Bidder or its Guarantor, if applicable, in the form of any combination of the following: cash (U.S. Dollars) or an irrevocable standby letter of credit from an issuer acceptable to SWEPCO ("Letter of Credit"). Any guaranty or letter of credit must be in a format acceptable to SWEPCO. The letter of credit issuer must be a commercial bank organized under the law of the United States or a political subdivision thereof operating from an office in the continental United States, who is not affiliated with the Bidder or its Guarantor (i) with a Credit Rating of at least "A-" in the case of S&P or "A3" in the case of Moody's; and, (ii) having assets of at least \$10,000,000,000.

In the event that the financial condition of a Bidder or its Guarantor changes over the term of the definitive agreement, SWEPCO reserves the right to request updated information to reevaluate the Bidder and its collateral requirements, which may be adjusted accordingly.

Each Bidder must provide a statement in good faith describing the manner in which it will comply with the credit requirements, if applicable. Upon receiving notification, a Bidder selected for the short list must provide specific evidence of its ability to meet the collateral requirements to be set forth in a definitive agreement. Evidence of Bidder's ability to post sufficient collateral or a guaranty may include, but not be limited to, a comfort letter from a financial institution that would be issuing a letter of credit, evidence of available cash on financial statements, a comfort letter from a proposed guarantor, or other evidence acceptable to SWEPCO based on commercially reasonable credit standards. Any bidder failing to provide sufficient evidence of the foregoing may be dismissed from further consideration.

Required collateral and a guaranty from an acceptable Guarantor, if applicable, must be posted by Bidder upon execution of definitive agreements.

In the event that Bidder's financial condition or Credit Rating changes at any time after submission of its bid and before consummation of definitive agreement, the Bidder will provide notice to SWEPCO and will update information concerning this change. SWEPCO reserves the right to request any updated pertinent information and to reevaluate and adjust the Bidder's and collateral requirement based on such change.

Any Bidder failing to provide evidence in sufficient detail of changes in financial condition or Credit Rating and the ability to meet any adjusted collateral requirement, may be dismissed from further consideration.

If Bidder, its Guarantor, or other affiliates supported by the same Guarantor have existing exposure under transactions with SWEPCO, or its affiliates, SWEPCO reserves the right to require additional collateral as a means to mitigate the incremental exposure from the potential transaction under this RFP.

On or before the date this EEI is fully executed, Seller shall establish a Security Deposit in the amount of the required collateral. If a breach of Seller's obligations under this EEI has occurred and is continuing, then in addition to any other remedy available to it, Purchaser may, draw from the Security Deposit. Purchaser may, in its sole discretion, draw all or any part of such amounts due to it from any form of Security Deposit.

"Security Deposit" means the performance security that Seller is required to establish and maintain through the term of this EEI. The Security Deposit shall be provided in the form of (A) cash, or (B) an irrevocable standby letter of credit provided from an Acceptable Issuing Bank.

"Security Deposit Amount" means the per MW security requirement established during the bidding process.

"Acceptable Issuing Bank" means a United States commercial bank or a foreign bank with a United States branch, which United States commercial bank or United States branch has at the applicable time a Credit Rating of (a) A- or better from Standard & Poor's Rating Services and (b) A3 or better from Moody's Investors Service, Inc.
